Advanced Management and Communication Skills (AMCS) Training

Date: 19 August 2026

The Institute is pleased to announce the 29th Batch of Advanced Management and Communication Skills (AMCS) Training, commencing from 2 September 2026.

The training was previously conducted as General Management and Communication Skills (GMCS) Training. From the 29th Batch onwards, the Institute has enhanced and redesigned the program as Advanced Management and Communication Skills (AMCS) Training, with an improved training model and an expanded focus on advanced management, leadership, communication, interpersonal and professional competencies.

The AMCS Training is designed to equip participants with advanced management and leadership skills, effective communication and presentation capabilities, interpersonal skills, professional confidence, and awareness of contemporary business and socio-economic issues. The training follows an intensive, interactive and practice-oriented approach, incorporating presentations, case studies, simulations and team-based event management to develop the practical competencies required in professional practice, employment and entrepreneurship.

The training is intended to support participants in their transition from students to competent and confident professionals by developing the skills necessary to work effectively with clients, senior management, Boards of Directors, regulators and other stakeholders, and to take on leadership and decision-making responsibilities in a dynamic professional environment.

Participation in and successful completion of the AMCS Training is a mandatory requirement prior to applying for membership of the Institute. Participants who successfully complete the full duration of the training will be awarded a Program Completion Certificate by the Institute.

Students who have passed the CA CAP III Level Examination, appeared in both groups of the CA CAP III Level Examination, or passed the AT Examination are eligible to participate in the training.

Eligible students are required to complete their registration by 24 August 2026 through the ICAN App, available on both the Google Play Store for Android devices and the Apple App Store for iOS devices.
